Supplier Selection Strategy Report

Assistant Design:

- Designed AI-powered features (e.g., one-click data extraction, automated charting, trend analysis, report validation) to boost report quality by 50% and writing efficiency by 30%; adopted in 200+ supplier selection projects.

Internal Procurement eMall Redesign:

- Redesigned information architecture and introduced AI driven capabilities including intelligent recommendations, risk alerts, PR auto-drafting from Excel requests, and analytics dashboard; streamlined steps (7→5), improved efficiency by 20%, and achieved SUS 86+ (N=996).
