YING ZHANG,

Product Designer

2023.08 - 2025.08

Huawei

Redesigned an ERP procurement platform to tackle issues like slow product selection and complex PR forms. Conducted competitor analysis, reviewed 30,000+ user data points daily, and interviewed 10+ specialists. Defined three AI-driven efficiency scenarios and two optimization approaches. Delivered 100+ UX pages, coordinated with teams to resolve conflicts, and ensured timely launches. Improved workflows by incorporating feedback from 900+ users, reducing steps from 7 to 5, boosting efficiency by 20%, and achieving a SUS score of 86+.

Led the design of an AI assistant for supplier selection reports, tackling time-consuming report creation and data errors. Compared with AIPPT and Gamma, interviewed five procurement managers, defining features like automated chart generation. Created 50+ UX pages, optimized data visualizations, and incorporated user feedback. Deployed in 200+ projects, improving report quality by 50% and writing efficiency by 30%.

2022.08 - 2023.08

Boson Biotech Ltd., EPC, Cornell University

Designed and developed responsive websites using WordPress and the Dino Web framework. Increased user engagement for biotech, corporate, and academic platforms through intuitive information architecture and usability testing.

2021 - 2023
